

Centre for EMERGENCY HEALTH SCIENCES

A division of BSB Emergency Services

Is EKG a foreign language of squiggle lines to you? Are you savvy and just want to brush up your skills? This course has something for everyone and we have one scheduled for each FIRE/EMS shift! We will begin with the basics of cardiovascular anatomy and the EKG basics and move through key indicators and diagnosis.

8-hrs of DSHS CE will be offered.

12-Lead Classes
