

## **Staff Nurse – Pediatric Emergency Department**

University Health System Children's Health offers comprehensive pediatric services, from primary care to advanced specialized care for the most complex diseases. University Hospital, ranked "Best Hospital" 5 years in a row by U.S. News & World Report, is home to the highest designated pediatric trauma center, and only pediatric burn program, in South Texas.

The Emergency Department "ED" at University Hospital is proud of its role as a Level I Trauma Center, teaching institution and leader in premier emergency medicine care serving over 22 counties in South/Central Texas. The ED is the largest ER in San Antonio, Texas, made up of 80 beds serving our community and surrounding areas. We are actively searching for pediatric talent for night shift (7 p.m. -7 a.m.) opportunities. We welcome you to join our team and mission.

University Health System's Pediatric Emergency Department serves pediatric patients during one of the most critical times of their stay at University Hospital. The entire care team is known for their swift response, specialized skills and support when it is needed most. There is no better relationship in nursing than that of an ED Nurse working with an ED provider. Teamwork is essential for quality patient care and safety.

### **Perks:**

- Preceptor program for nurses
- Learning environment
